Self adhesive tear tape is a narrow firm strip. It is intended for [easy opening of packs without knife or scissors](#).

Area of application: opening of cigarettes, cookies, chewing gum, medical packaging, CD, DVD, etc. The tear tape is uncoiled on the packing machine simultaneously with packaging film, automatically sticking to it.

Technical characteristics

Width, mm	2 (1,2...3,0 custom-made) \pm 0,1
Length, m	10 000
Length of spool hub, mm	100
Internal diameter of spool hub, mm	29
Outer diameter of the spool for the tape of 2 mm width, maximum	120
Outer diameter of the spool for the tape of 3 mm width, maximum	140
Spool width, mm	85
Winding	crisscrossed, adhesive side inside
Base thickness, micron	26 \pm 2
The total thickness of the tape, micron	37 \pm 5
Mechanical tensile strength, kg/25 mm	24
Specific elongation for break, %	25 \pm 10
Ultimate tensile strength, kg/mm ²	40
Elasticity module (10%), kg/mm ²	200
Adhesion test, g/25 mm	400
Country of origin	Taiwan
Q-ty in box	8 pcs
